System streamlined and upgraded!

For those who already use a B-System mixer with an F-System cartridge and a converter, the new MIXPAC MFHX mixer offers significant advantages: instead of assembling three parts, you simply mount the mixer on the cartridge as usual, and you're done.

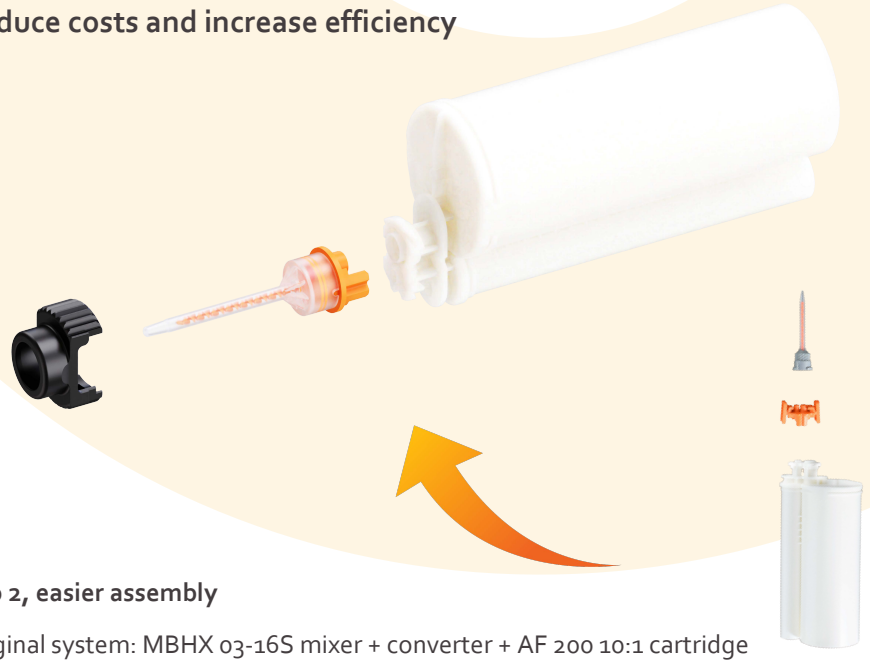

- Easier assembly, saving time
- >50% increase in pressure resistance
- Significantly reduced risk of material leakage
- Reduced downtime

Overall, the new system enhances efficiency, reliability, and convenience, providing users with a more reassuring experience.

3-to-2 system upgrade and streamlined design

Reduce costs and increase efficiency

3 to 2, easier assembly

Original system: MBHX 03-16S mixer + converter + AF 200 10:1 cartridge
Upgraded system: MFHX 03-17L mixer + AF 200 10:1 cartridge

Reusable bayonet ring

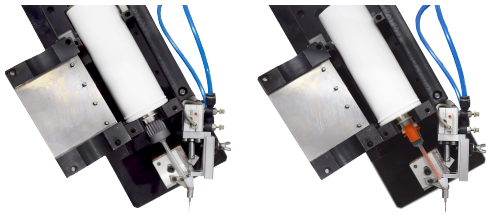

- Precise 3D printing customization, which can match particularly narrow spaces
- Two versions are available – metal and plastic – to better suit different cost requirements

Improved pressure resistance

- The risk of leakage is greatly reduced
- Reduce downtime and improve efficiency

Upgraded system | Original system

Precise positioning

It is completely consistent with the spatial positioning of the 3-piece system before the upgrade on the dispensing machine, so the original system can be replaced without difference.
